

NITROHEAT

A SMARTER WAY TO APPLY PAINT.

Minimize Paint Overspray.
Maximize Profits.

NITROMAX

- ⬆️ INCREASE YOUR TRANSFER EFFICIENCY
- ✓ REALIZE THE HIGHEST FINISH QUALITY
- ⌚ PROMOTE FASTER FLASH TIME
- ⌚ EXPEDITE YOUR CYCLE TIME

NITROMAX 30

Technology meets paint application. Fusing the isolation of Nitrogen with heat, to produce high quality, efficient, effective paint application.

Average ROI
14 months

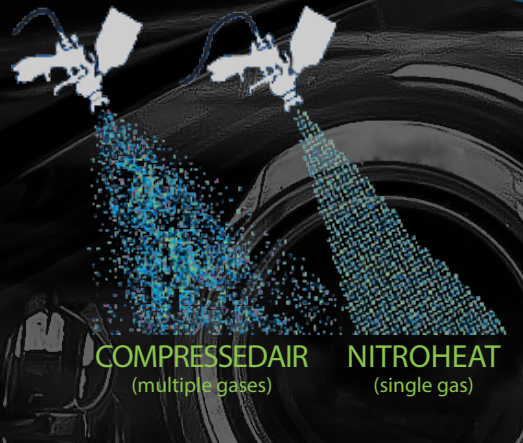

HEATPRO 200

Infuse heat with Nitrogen isolation for temperature consistency to improve paint application coverage.

Constant, consistent spray temperature for optimal paint application results.

Improve your overall paint application coverage results with technology driven products.

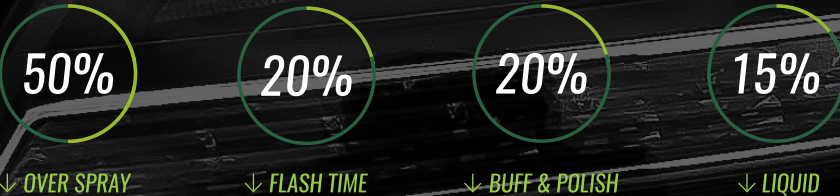

Don't just repair your bumper. Use our technology to restore its original quality.

Our Plastic Welder repairs equipment to the strength it was first made with.

Gain control over your welder to manage temperature for optimal welding results.

PLASTIC WELDER

↓ OVER SPRAY

↓ FLASH TIME

↓ BUFF & POLISH

↓ LIQUID
